13.2.	Articles.....	1
13.3.	Patents	1

13. BIBLIOGRAFIA

13.1. Llibres

- “The Use and Storage of Methyl Isocyanate (MIC) at Bayer CropScience”, Committee on Inherently Safer Chemical Processes. 2012.
- “Lee’s Loss Prevention in the Process Industries”, Hazard Identification, Assessment and Control. Volume 1. 3rd Edition.

13.2. Articles

- “Bhopal, Lessons for Technological Decision-Makers”, Robert U. Ayres and Pradeep K. Rohatgi. Technology In Society. Vol. 9 pp. 19-45 (1987).
- “Review of Methyl Isocyanate (MIC) production at the Union Carbide Corporation Facility Institute, West Virginia”. 15 d’Abril de 1985. Regional Center for Environmental Information US EPA Region III.
- “The Bhopal Accident”, Technological forecasting and social change, 32, 169-182 (1987). 1987. Elsevier Science Publishing Co., Inc.
- “The unfolding of Bhopal disaster”, T. R. Chouhan, 2005. Elsevier Ltd.
- “Studies of Methyl Isocyanate Chemistry in the Bhopal Incident”, Themistocles D. J. D’Silva, Anibal Lopes i altres. Union Carbide Agricultural Products Company, Inc. 1986.

13.3. Patents

- US 8,153,838 B2. “Process for producing isocyanates”.
- US 3,488,375. “Stabilized Methyl Isocyanate Compositions”.
- US 4,391,758. “Process for methyl isocyanate production”.
- WO 00/14057. “New process for carbamate production”.
